

Elev8 Brands, Inc. Delivers Company's Largest Bulk Hemp Coffee Order for Prominent U.S.-based Hemp Brand

ROCKLEDGE, Fla., August 25th, 2017 (GLOBE NEWSWIRE) -- Elev8 Brands, Inc. (OTC Pink: VATE), a holding company focused on the commercial development of hemp and CBD-based products including hemp coffee, tea, and E-juices, which target the health and wellness markets, announces the company has delivered and received payment for their largest bulk hemp coffee order to date.

This new customer boasts a large social media brand with over 350,000 followers through Facebook, Twitter, Pinterest, and Google+. In addition to hemp coffee which is one of the most popular selling products, this company markets hemp seeds, beverages, and body care products using hemp as the primary ingredient.

This is the first of several bulk hemp coffee orders with Elev8 Hemp's new customer. The company client plans to place a new order for single-serve cups, which are compatible with Keurig 2.0. These single serve capsules are eco-friendly and completely compostable.

Chief Executive Officer Ryan Medico stated, "We are thrilled to become a supplier to one of the fastest growing and well-known American hemp brands. Our private label and bulk hemp coffee business is growing faster than anticipated and opening up huge opportunities for the company."

Wholly-owned subsidiary, Elev8 Hemp LLC, was able to customize a hemp coffee recipe, roast, package and deliver the order within a week. One of the primary reasons the company was selected was the ability to contract roast hemp coffee "on-demand" which locks in freshness of the coffee. The company also meets the most stringent requirements of being Organic, Fair Trade and BRC certified which is mandatory for large retail chains such as Whole Foods and Kroger.

The company now has several private label customers and is in discussions with additional prospects. Medico concluded, "As our proprietary Elev8 Hemp Coffee brand grows we're excited about the private label and bulk hemp coffee business as it is repeat customers and recurring revenue and profits. Each week we are receiving new inquiries and intend to quickly turn them into customers."
